

Our Clinics

With over 35 locations across Ontario including Toronto, Mississauga, Oakville, Richmond Hill, Brampton, Oshawa, Hamilton, Burlington, London, Guelph and St. Catharines, as well as new locations opening soon in Ontario, B.C. and Alberta, Physiomed is uniquely equipped to service the needs of a growing number of Canadians.

Our clinics are staffed with top healthcare professionals from the best schools in the country, including chiropractors, physiotherapists and physiotherapy assistants, massage therapists, kinesiologists, chiropodists and naturopaths.

Physiomed clinics offer state-of-the-art facilities equipped with active care areas with fitness equipment and MedX specialty equipment, swimming pools for aqua therapy, and the latest technologies such as Shockwave and Wave vibration machines for advanced therapeutic treatments.

Who Is Physiomed?

Physiomed is one of Canada's largest and fastest growing chains of healthcare clinics. Physiomed's founder, Dr. Scott Wilson, began helping Canadians improve their health in 1995. Since then, Physiomed has grown to over 35 clinics, and is now expanding across Canada. With hundreds of highly skilled healthcare professionals, we're proud to improve the health and wellness of thousands of people.

Why Physiomed?

At Physiomed, rehabilitating injury is just the beginning. Our whole health approach is about treating, strengthening and educating for long term health. We believe that by working with our patients to address their health challenges and achieve their health goals, we can help them live healthier, fuller lives.

We're dedicated to helping people improve their health in five key areas:

Pain & Injury Treatment

Metabolic & Chronic Condition Management

Preventive Health & Weight Control

Athletic Performance Enhancement

Foot Health Solutions

Physiomed Pain & Injury Treatment

Whether patients come to us with chronic pain, injuries sustained in a motor vehicle accident, sports injuries or repetitive strain injuries, we develop a passive and active care plan to improve mobility, flexibility and stability, and prevent future injuries from occurring. Combining therapeutic treatments, condition-specific strengthening exercises and the latest and most effective equipment, we work with our patients to promote quick rehabilitation and effective stabilization so they can return to enjoying their daily activities.

Our highly skilled healthcare practitioners develop an inter-disciplinary treatment plan for each Physiomed client, that delivers the benefits of a broad base of health disciplines working together, including:

- Physiotherapy
- Chiropractic care
- Chiropody
- Orthotics
- Clinical conditioning
- Massage therapy
- Acupuncture
- Compression therapy
- Active Release Therapy
- Shockwave therapy
- Vibration therapy
- Traction therapy
- Aqua therapy
- Naturopathy
- Nutrition counselling
- Sports conditioning
